

What is DAC?

Disability Action Center (DAC) is a nonprofit organization that was founded to meet specific needs of people with disabilities living in northern California. DAC is unique in that our direction is determined by people with disabilities: the majority of our board of directors, staff and volunteers are persons with disabilities. As a consumer-run, community based, human service agency, our purpose is to help people with disabilities achieve and maintain their optimal level of self-reliance and independence in life. DAC provides personalized, individual services as well as public education disability community organizing and advocacy.

Support Group Activity

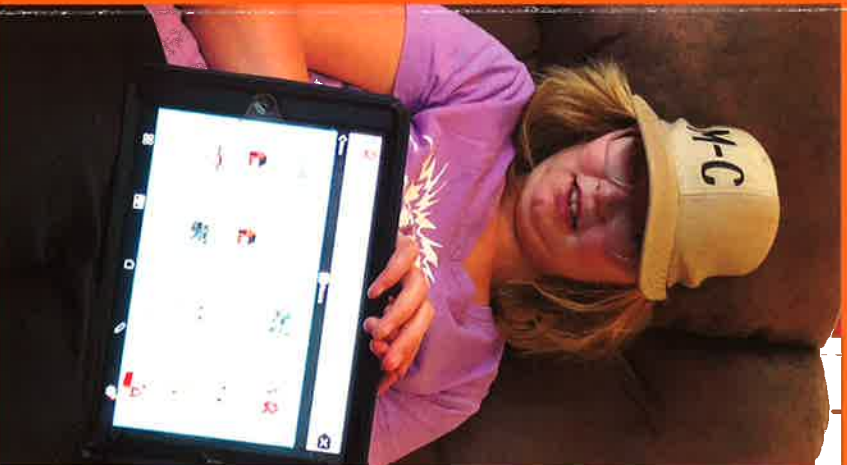

PHILOSOPHY & PURPOSE

Persons with disabilities are entitled to all human rights, including integration into all aspects of the community. This can be achieved only when the fear, superstition and ignorance surrounding disabilities are replaced by realistic, open and informed attitudes and behaviors. Both disabled and non-disabled persons equally share the responsibility for changing attitudes and behaviors in life.

It is our purpose to assist persons with disabilities to achieve and/or maintain their independence. We will provide support services and advocate to eliminate barriers (physical & societal) to increase opportunities for participation in the community.
